

6cm

Kojak Airport Low-Pro Beacon 6cm

When size really matters

CAP 168

Airport 168 Flash

Yellow or **Blue**

(Blue for emergency vehicles only)

Kojak uses five times less power than traditional rotating mirror lights or flashing halogen bulbs.

It is maintenance free and has a life similar to that of the vehicle.

Its low profile size will allow a vehicle to enter a car park, fit under a wing or even park in a garage without damage to the beacon.

- ▶ Yellow or Blue LED with clear Tough Polycarbonate external lens
- ▶ Reinforced Nylon base and Stainless Steel fittings
- ▶ Low Profile with DIN Base fittings
- ▶ Easy install
- ▶ Designed to CAP 168 for Airport and Heliports
